# PRACTICE BEFORE YOU PROPOSE

While Ring Cam is easy to use, practicing will make it perfect.

RING CAM

Quick Start

1- LED Light	3 - Toggle Switch
2 - Wide Angle Lens	4 - USB Port

How to use the Ring Cam

Go to ringcam.com/start for an instructional video

Action	Description	LED Light
Record	Toggle the switch to the ON position. The LED light will turn yellow, then flashing red. The red light will continue flashing throughout the recording.	🟡 🔴
Stop	Toggle the switch to the OFF position. Light will flash yellow and turn off.	🟡
Low Battery	When the switch is in the ON position, the light will flash red/yellow for 3 seconds and stop. If this happens, the Ring Cam requires charging.	🔴
Charging	While the switch is in the OFF position, connect the Ring Cam using the included USB cable to either a computer or wall outlet charger. The LED light will remain solid green while charging. When fully charged, the green LED will shut off.	🟢

Viewing Your Recordings

Plug USB cable into the Ring Cam and computer. Turn switch ON. The LED light will turn yellow. Search for "RING CAM" under your connected devices. Copy over your recordings to your computer to save them. You are responsible for saving your own videos

FAQ & Tips

How long will a Ring Cam Record?
A recording will last 45 minutes on a full charge.

How long is Ring Cam's battery life?
Be sure to charge your Ring Cam before you propose, however a Ring Cam will hold a charge for a whole week.

Can I record in the dark?
Lighting is extremely important when recording any video. Consider your light source when recording.
